NetflixGPT

- NetflixGPT is an innovative project developed with React.js and styled with Tailwind CSS, aiming to replicate the immersive experience of browsing and selecting movies on Netflix. This project harnesses the power of React.js components to create dynamic user interface, offering seamless navigation through a vast collection of movies. Tailwind CSS brings responsive design elements, ensuring a visually stunning and user-friendly interface. By using OpenAI key we can have features for search functionalities and also by using TMDB we can have movies data for application. Also added Multi language feature in this Application.
- Technologies used: **ReactJS, Tailwind CSS, custom hooks, useRef Hook, React-Router-DOM, Redux Toolkit, OpenAI GPT, TMDB API, Firebase**
